- up to 1150 x 2250 mm.

Simplicity can take an elegant form, especially with technical doors that offer full customization. Functionality, reliability and advanced technology embedded in an aesthetic design are our top priorities. Function doors blend seamlessly into a variety of architectural contexts: from public buildings to single-family homes and apartment complexes to commercial buildings. Our products not only meet stringent safety and durability standards, but also subtly emphasize a modern approach to

design. You will find doors that meet even the most demanding technical standards. We offer a wide selection of accessories, including panic hardware, door closers, single and double-panel models, and a variety of mailbox and intercom solutions.

FUNCTION 1

Door Pull ES 30.600 Stainless steel
Glass Thermofloat (outside), Clear glass (inside)
Surface RAL 9016 Matte or microstructure
Heat transfer coefficient (Ud) 1,05 W/m2K
Profile system 75 mm

FUNCTION 2

Door Pull ES 30.600 Stainless steel
Glass Thermofloat (outside), Clear glass (inside)
Surface RAL 9005 Matte or microstructure
Heat transfer coefficient (Ud) 1,1 W/m2K
Profile system 75 mm

FUNCTION 3

Door Pull ES 30.600 Stainless steel
Glass Thermofloat (outside), Clear glass (inside)
Surface RAL 9007 Matte or microstructure
Heat transfer coefficient (Ud) 1,2 W/m2K
Profile system 75 mm

FUNCTION 4

Door Pull ES 30.600 Stainless steel
Glass Thermofloat (outside), Clear glass (inside)
Surface RAL 9016 Matte or microstructure
Heat transfer coefficient (Ud) 1,3 W/m2K
Profile system 75 mm

FUNCTION 5

Door Pull ES 30.600 Stainless steel
Glass Thermofloat (outside), Clear glass (inside)
Surface RAL 7016 Matte or microstructure
Heat transfer coefficient (Ud) 1,05 W/m2K
Profile system 75 mm

FUNCTION 6

Door Pull ES 30.600 Stainless steel
Glass Thermofloat (outside), Clear glass (inside)
Surface RAL 7021 Matte or microstructure
Heat transfer coefficient (Ud) 1,1 W/m2K
Profile system 75 mm

FUNCTION 7

Door Pull ES 30.600 Stainless steel
Glass Thermofloat (outside), Clear glass (inside)
Surface RAL 9007 Matte or microstructure
Heat transfer coefficient (Ud) 1,2 W/m2K
Profile system 75 mm

FUNCTION 8

Door Pull ES 30.600 Stainless steel
Glass Thermofloat (outside), Sandblasted glass with clear motifs (inside)
Surface RAL 7021 Matte or microstructure
Heat transfer coefficient (Ud) 1,3 W/m2K
Profile system 75 mm

FUNCTION 9

Door Pull ES 2631 Stainless steel knob fixed on oval rosette
Glass Thermofloat (outside), Clear glass (inside)
Surface RAL 9006 Matte or microstructure
Heat transfer coefficient (Ud) 1,2 W/m2K
Profile system 65 mm

FUNCTION 10

Door Pull ES 2631 Stainless steel knob fixed on oval rosette
Surface RAL 9007 Matte or microstructure
Heat transfer coefficient (Ud) 1,3 W/m2K
Profile system 65 mm

FUNCTION 10 | RAL 9007 | Example of application

MAIN EQUIPMENT
